Telling Ain't Training

- Declarative knowledge:
 - *A bicycle has two wheels, a pedal, you sit on it.*
 - *People can float in water*
- Procedural knowledge:
 - *Riding a bike*
 - *Swimming*

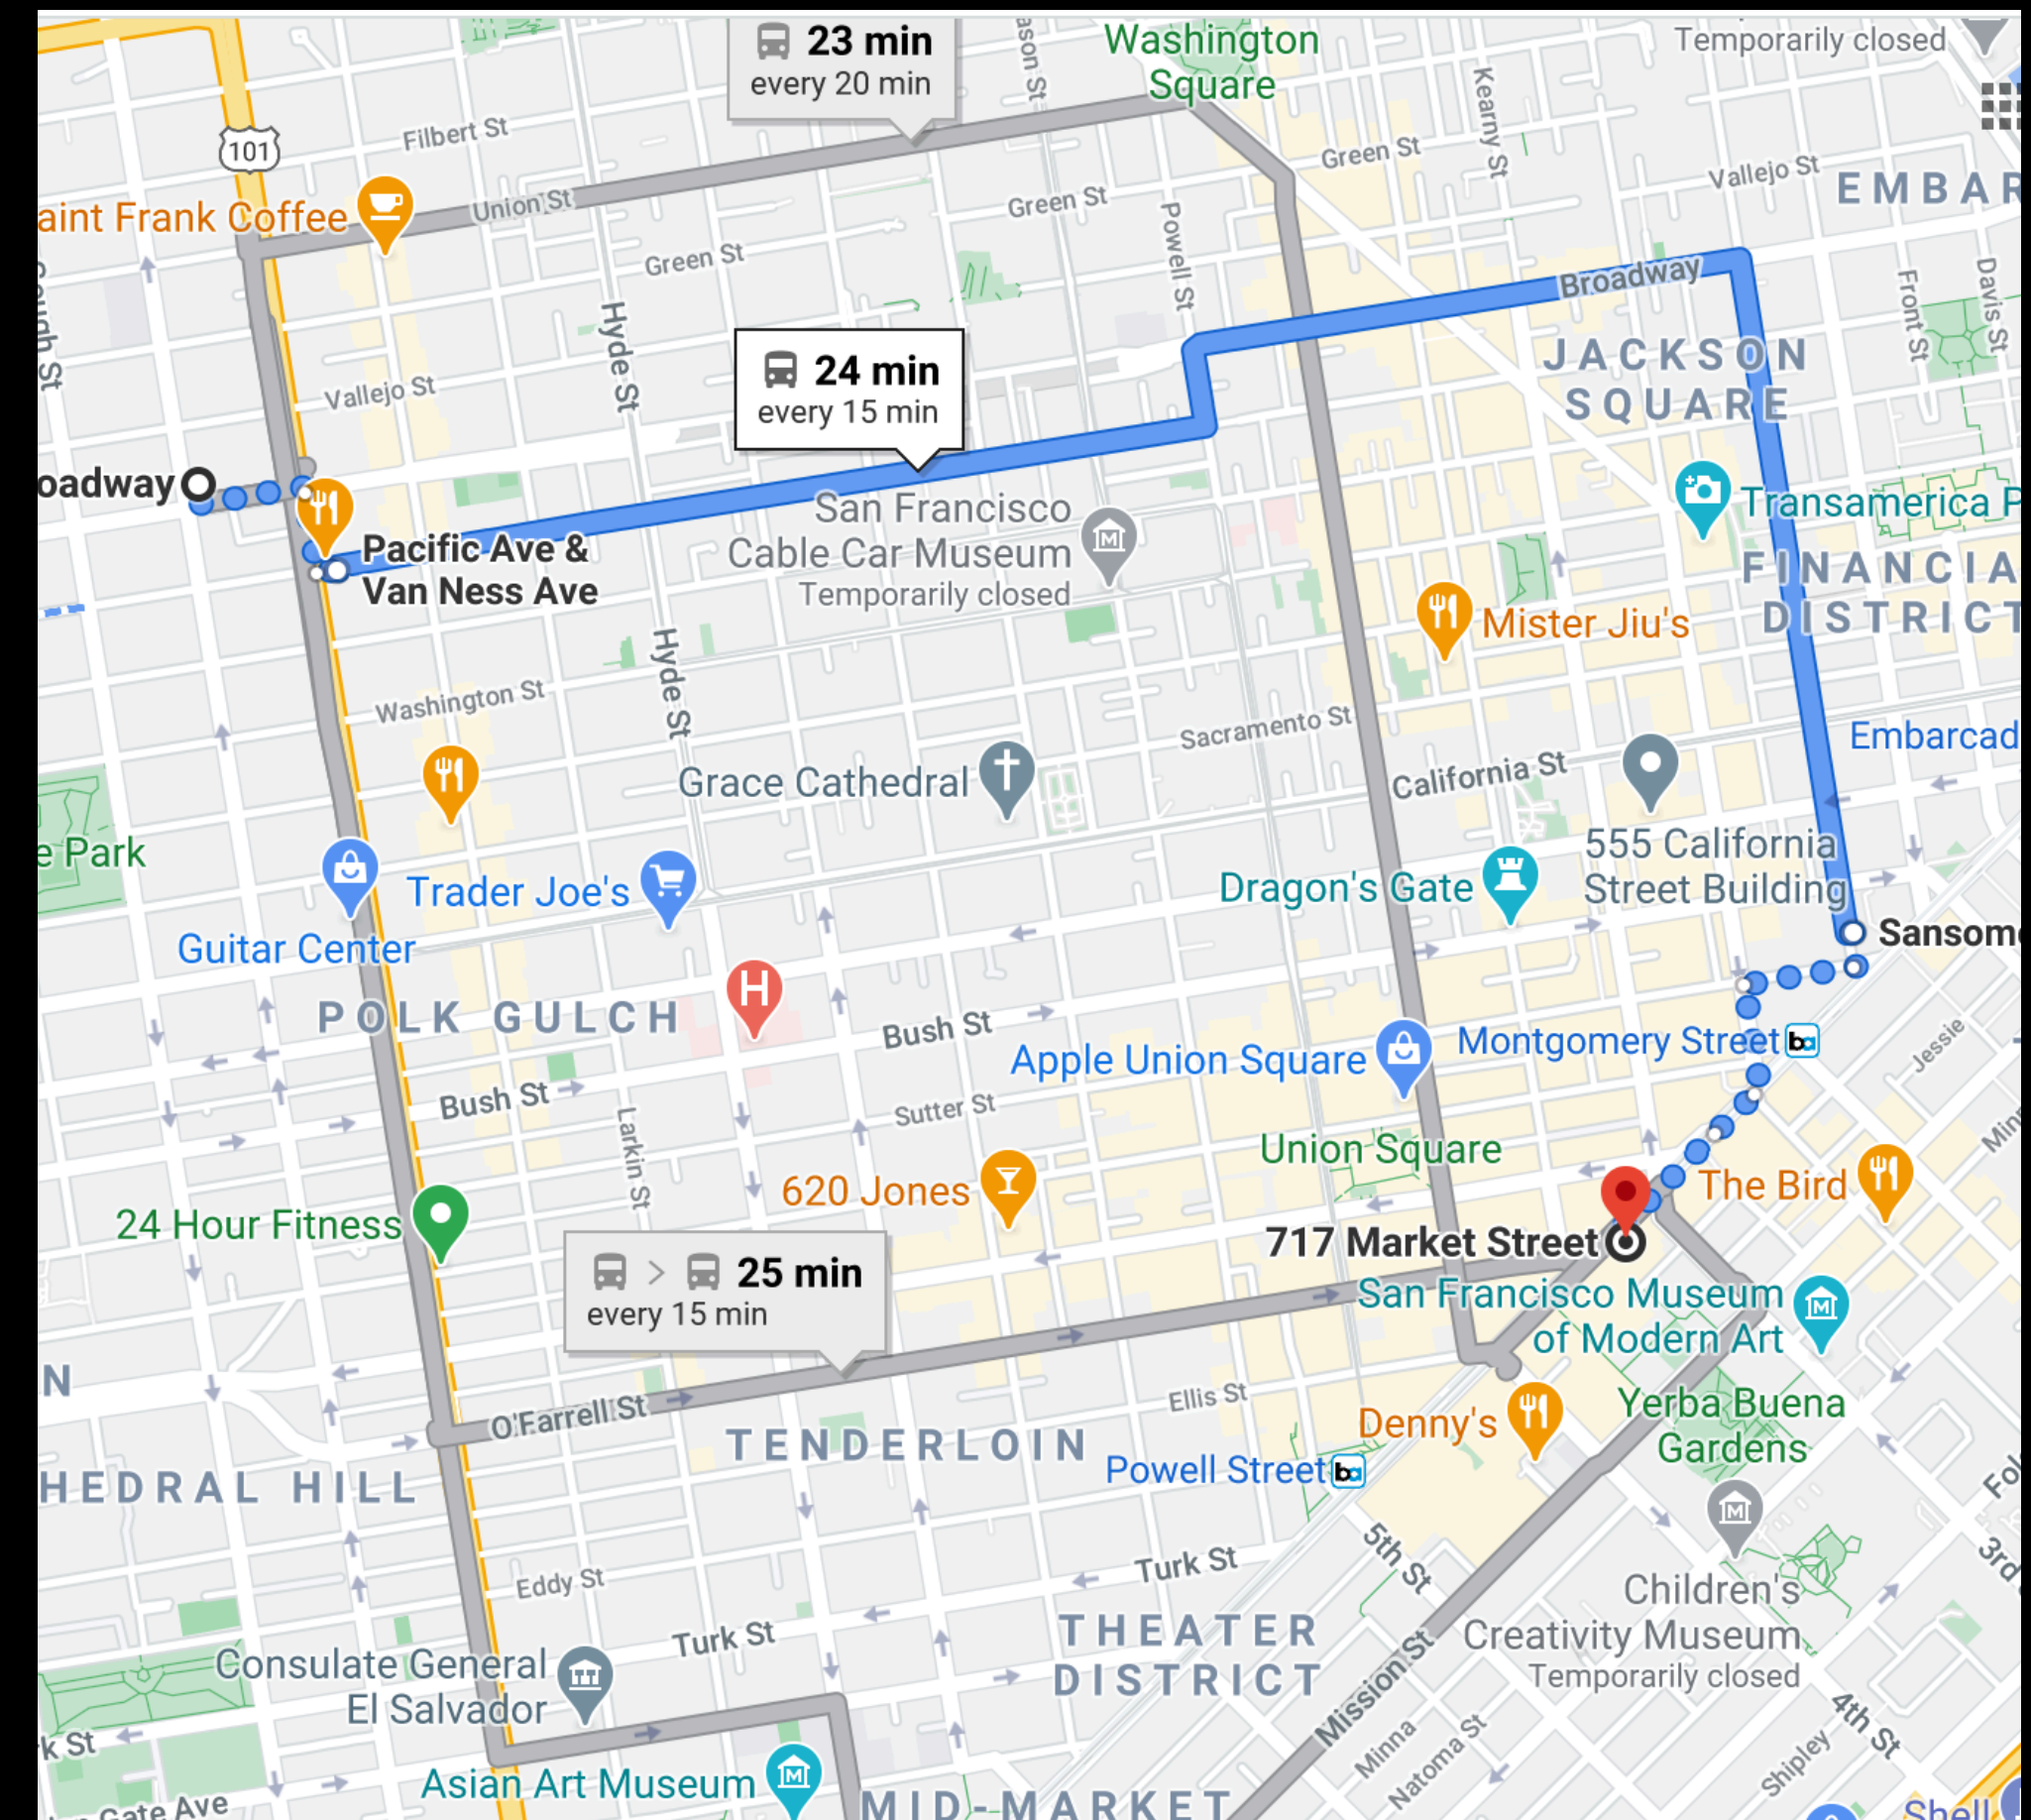

Exercise: Transit

- Tell your partner your address (or the address of a landmark near you)
- Then tell them how to get from Gilead HQ to that address.
- Ask them if they think you provided enough detail to get there (no GPS!)
- Then switch roles
- 5 Minutes

My Answer

- Do not know the address (or street name!) of the bus stop 2 blocks from my house
- When to get off bus?
- 5-street intersection at bus stop

Exercise: What's Important?

- What was the most important part of last week's lesson? Put your answer into the chat.
- The exercises were the most important part!

Learner Focused, Performance Based
Training "Mantra"

Criterion Referenced Instruction

Exercise	Reason
<code>select(babynames, n)</code>	Select 1 column by name
<code>select(babynames, ends_with("n"))</code>	Select columns using helper functions
<code>filter(babynames, prop >= 0.08)</code>	Filter rows by numerical logical
<code>filter(babynames, name == "Sea", sex == "F")</code>	Filter rows by multiple conditions, uses text
<code>arrange(babynames, desc(prop))</code>	Use arrange, desc

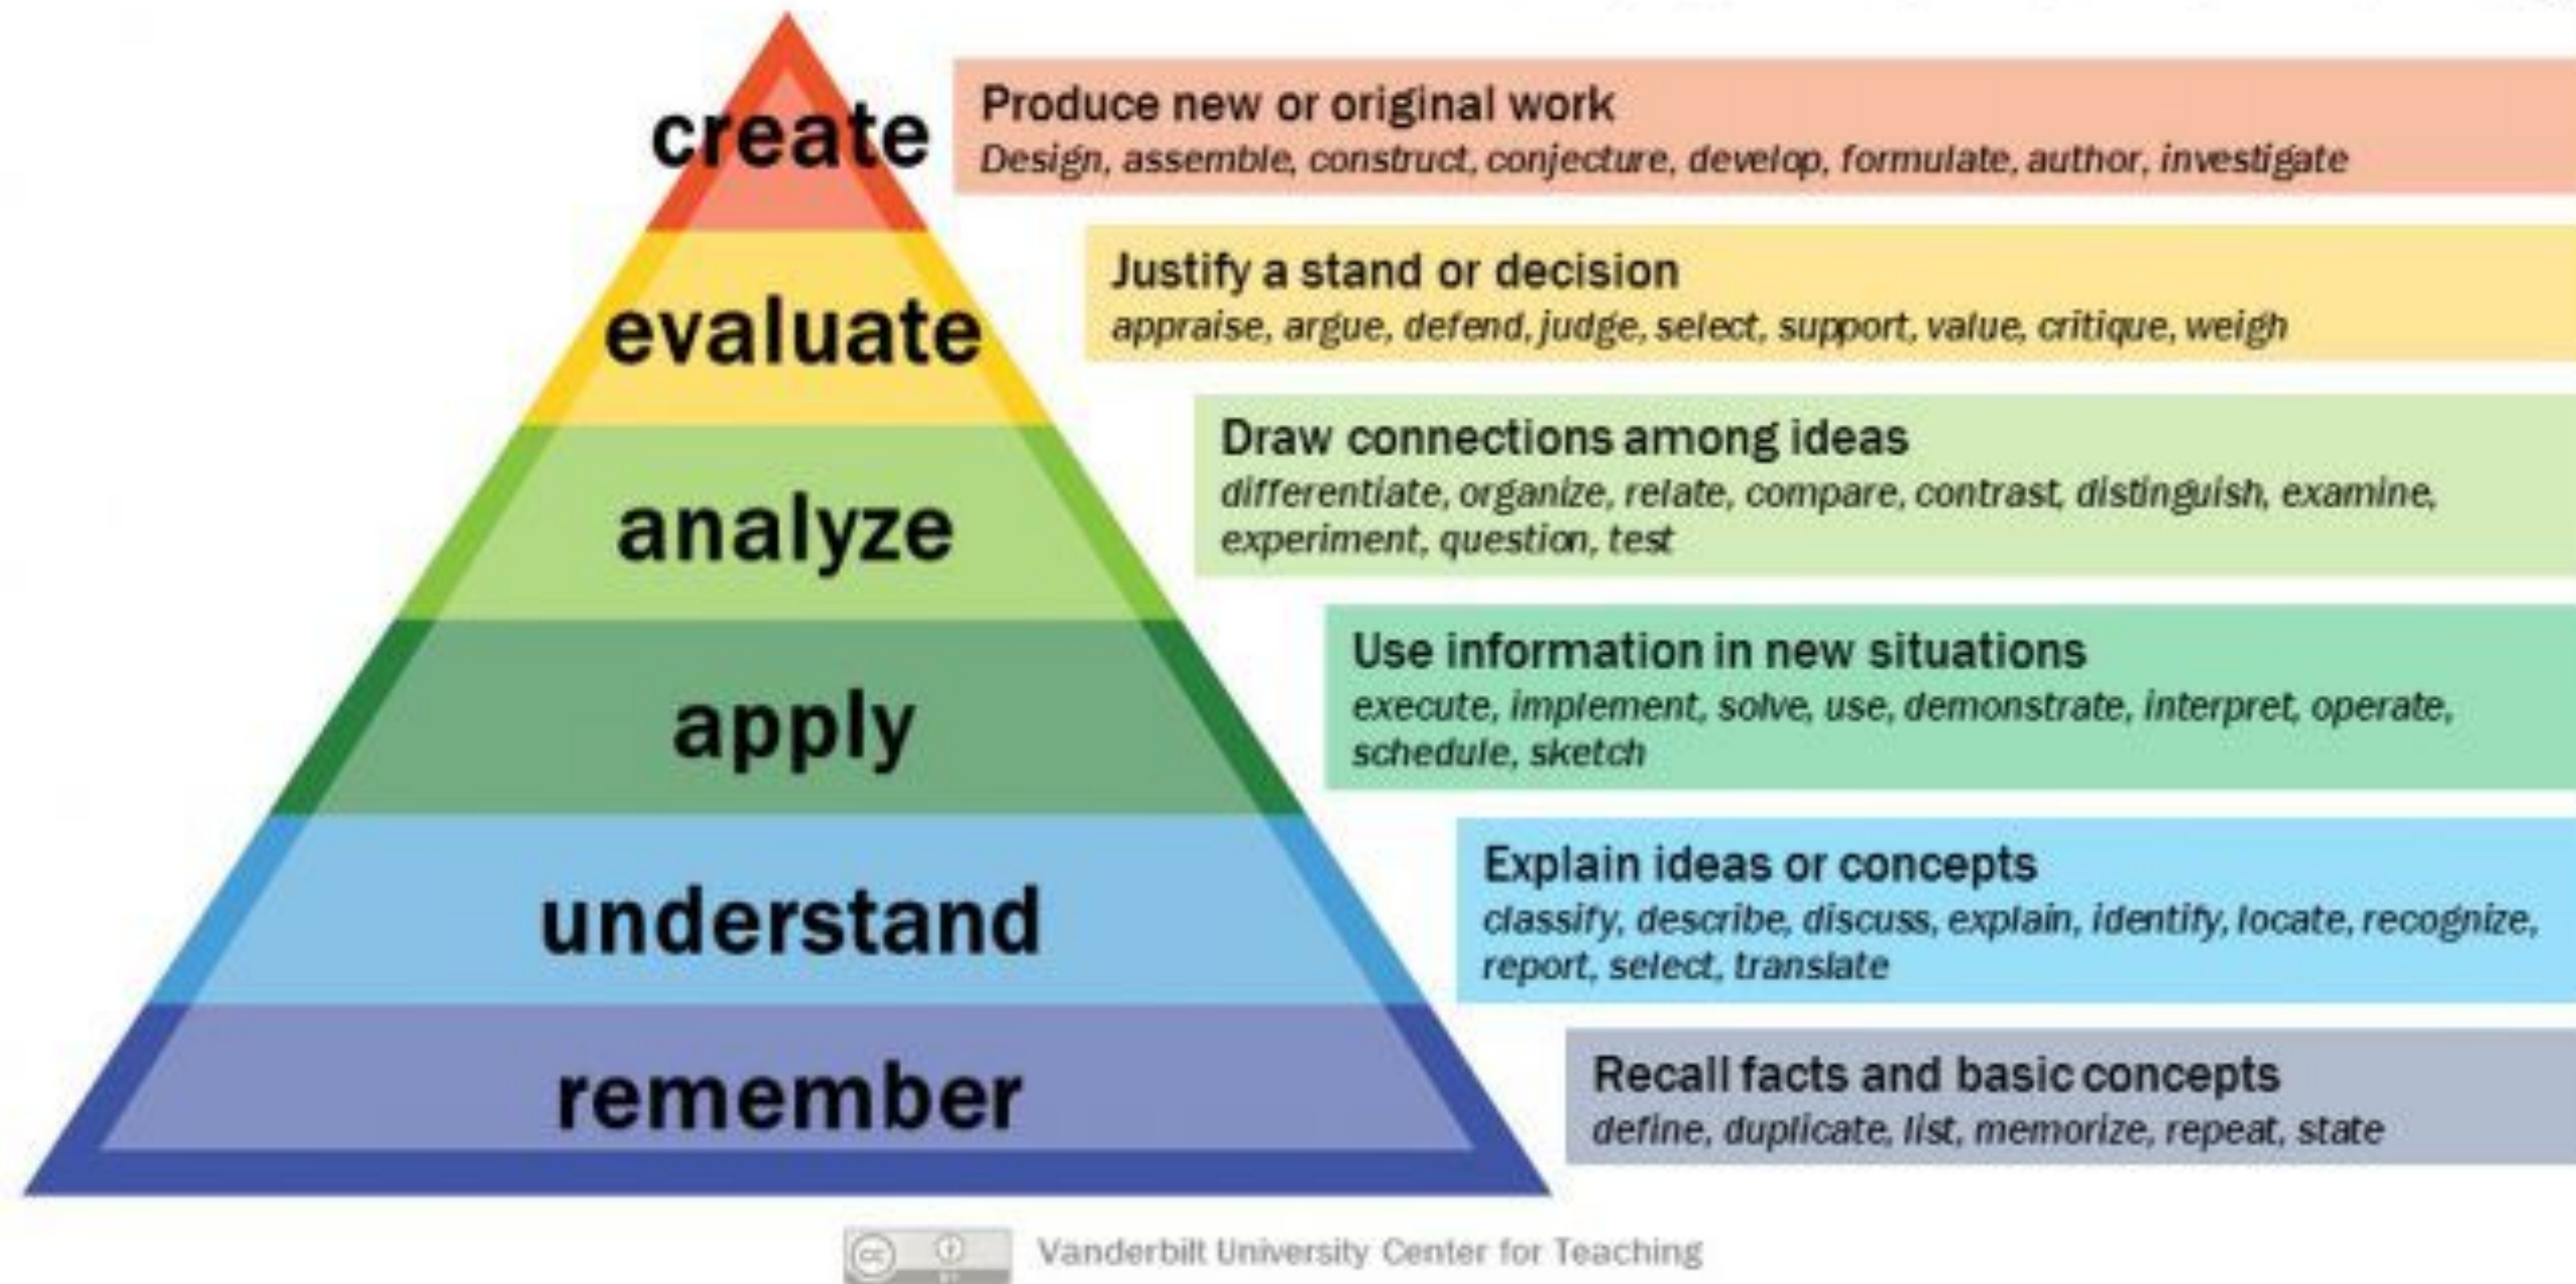

Training Wheels vs. Hurdles

What could go wrong?

What's in between?

Bloom's Taxonomy

Bloom's Taxonomy

Evaluating Training Programs

Was it worth it?

Evaluating Training Programs

- Published by Don Kirkpatrick in 1959
- 4 "Levels":
 1. Reaction
 2. Learning
 3. Behavior
 4. Results

Training Ain't Performance

But will they use it?

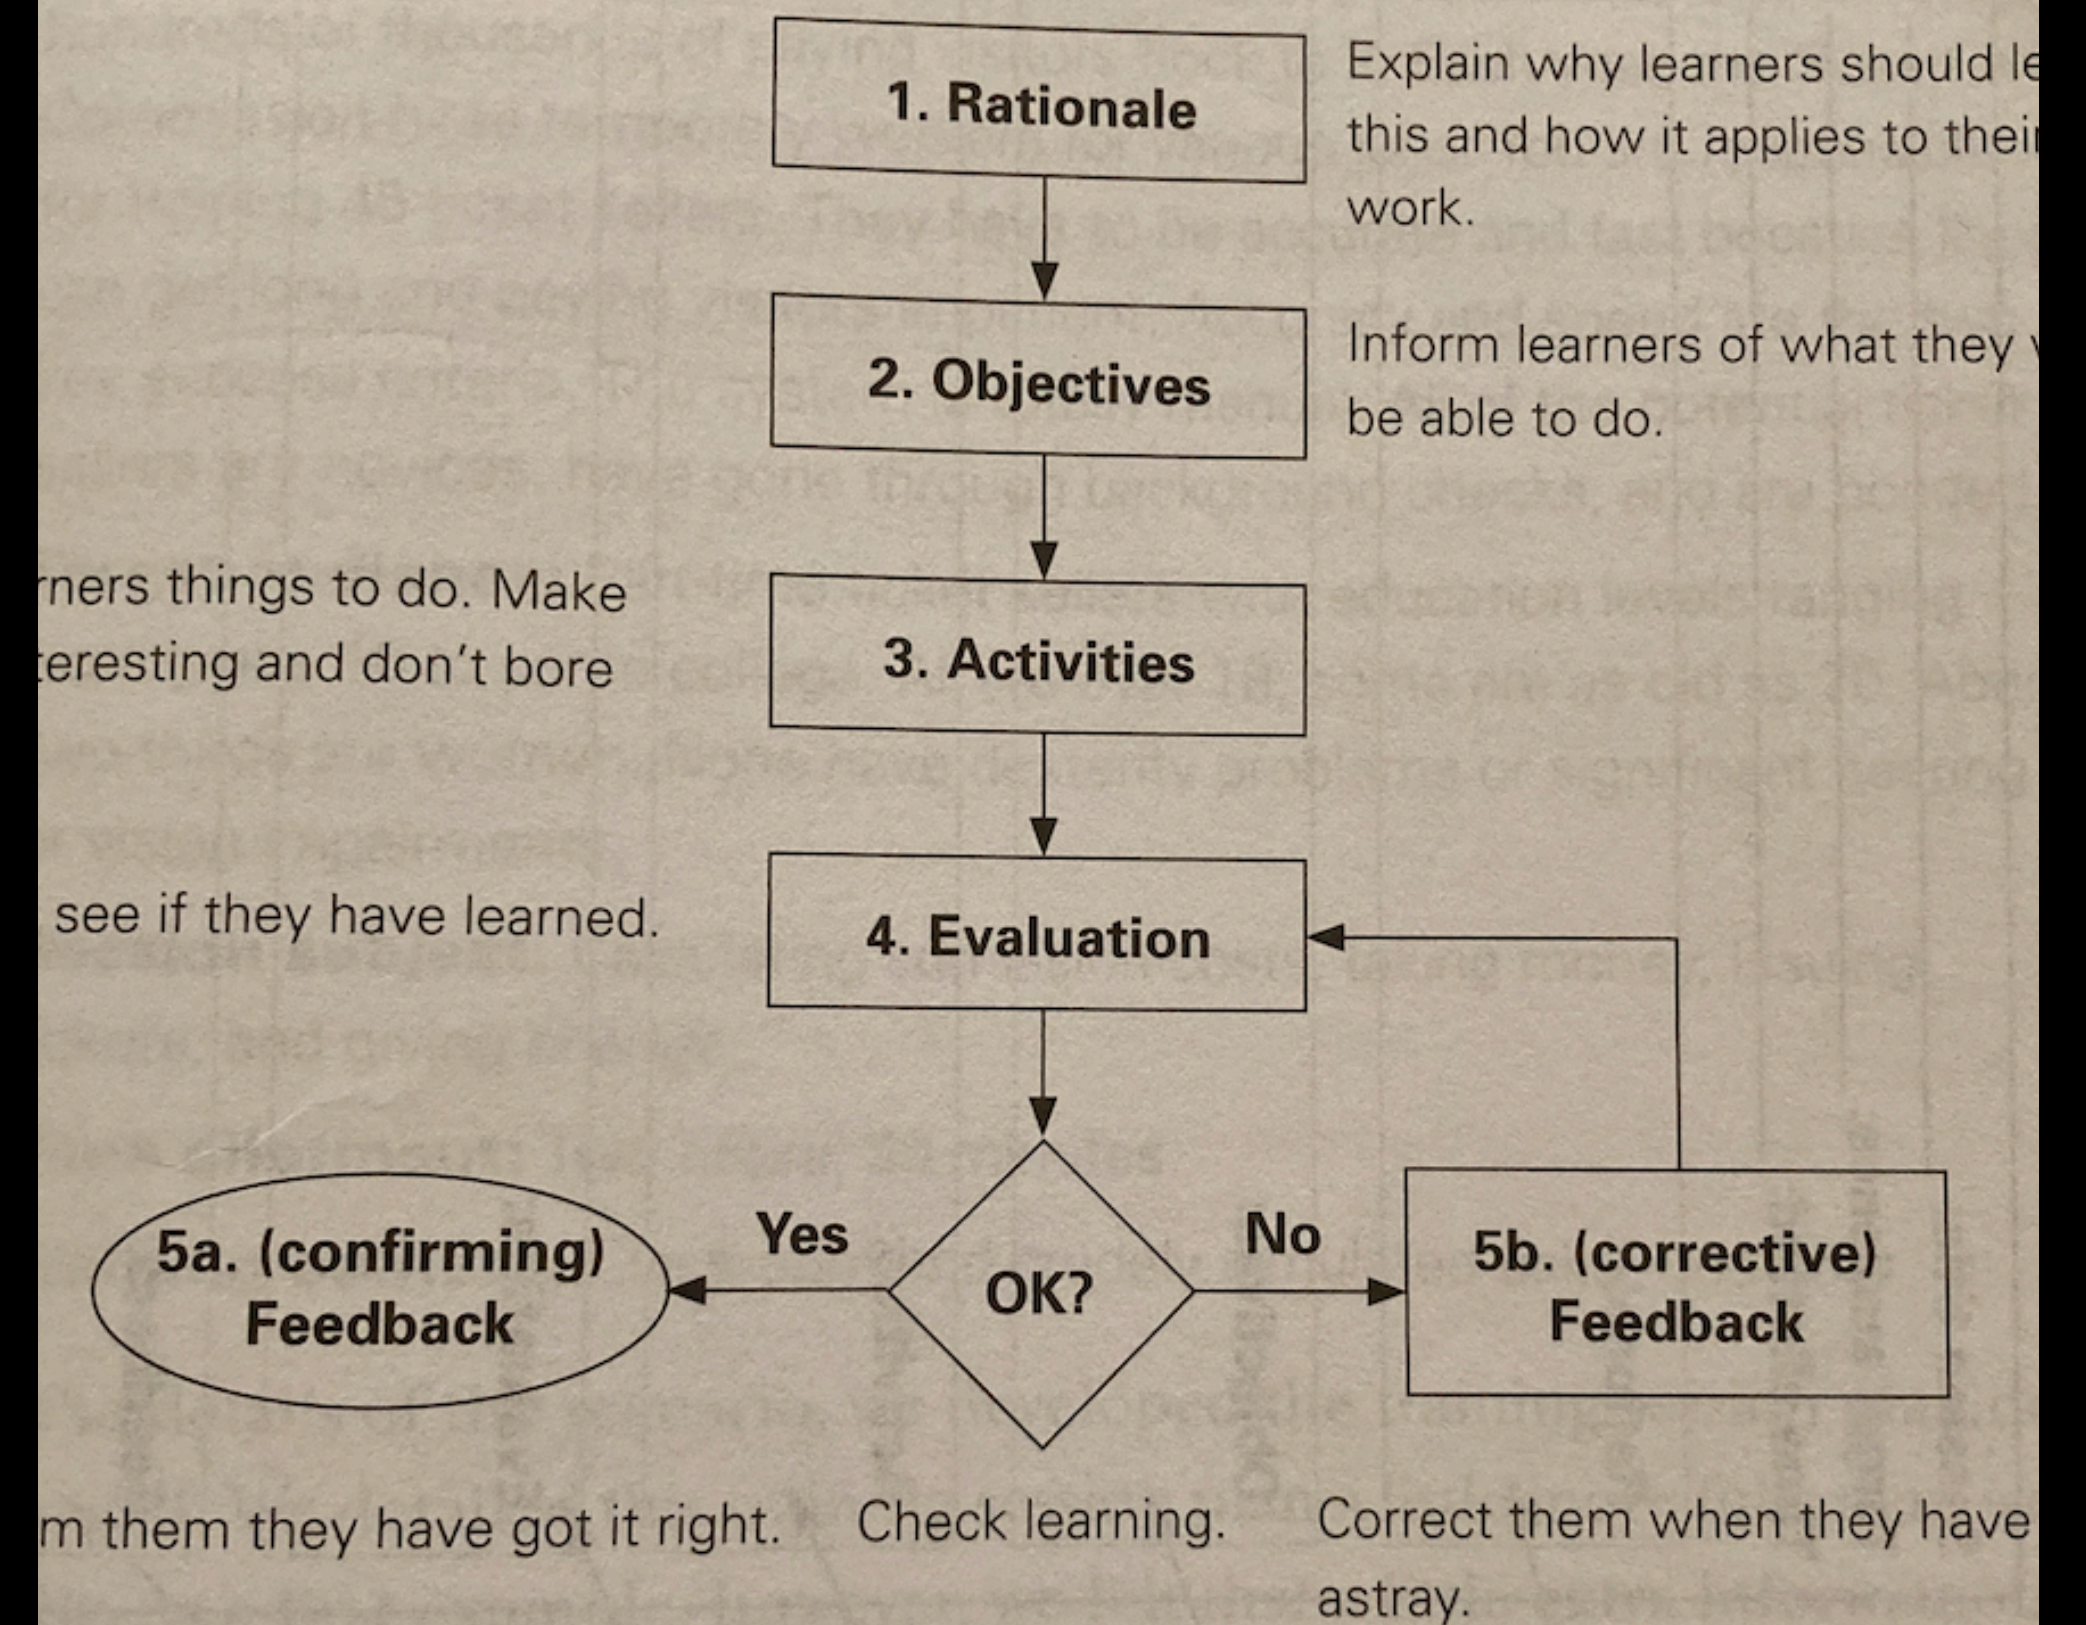

Formal Training vs. Mentoring

	Training	Mentoring
Duration	1-time	Ongoing
Number of people	Up to 20	1-1
Preparation	A lot	None

Creating Lesson Plans

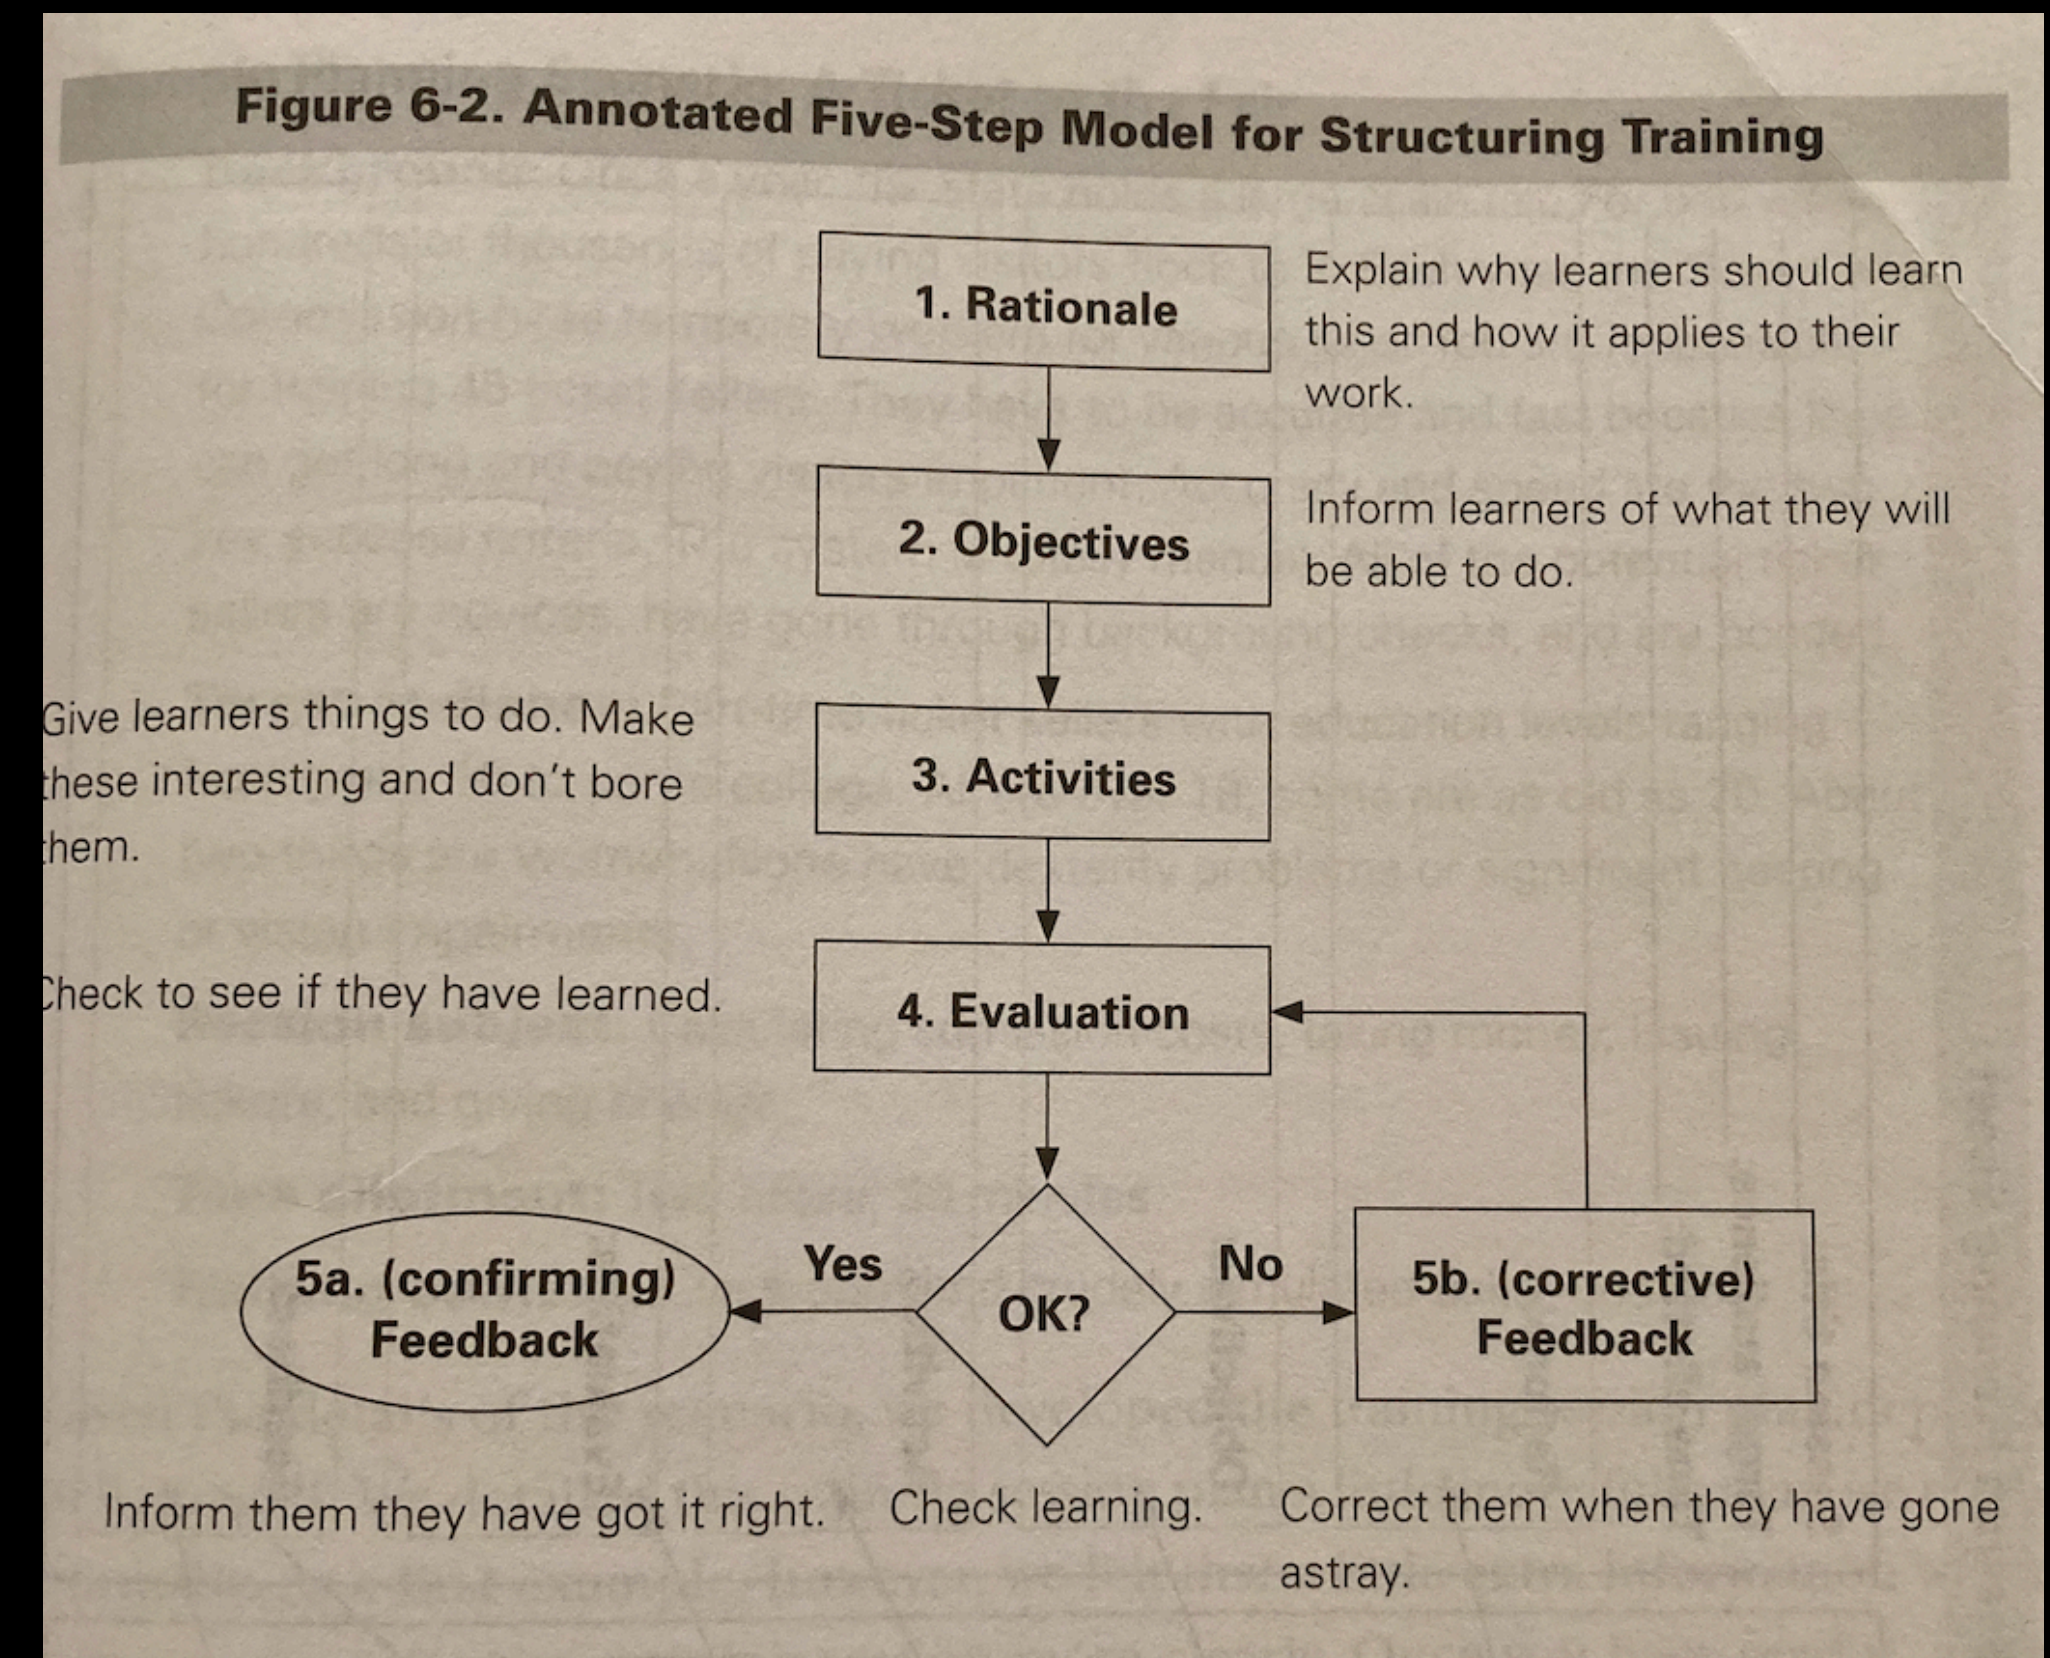

1. Rationale - Explain why learners should learn this, and how it applies to their work
2. Objectives - Inform learners what they will be able to do
3. Activities
4. Evaluation
5. Feedback

Figure 6-2. Annotated Five-Step Model for Structuring Training

Exercise: Lesson Plan

- Think of something you'd like your coworkers to learn
- Write out a rationale for them to learn this.
- Think of an objective for the first training session
 - Then create an activity / exercise
- Present to your partner
- 10 Minutes

RStudio Instructor Training
